Branding Exercise

For this exercise, please think about your organization in terms of a person - what kind of personality does your organization have? What do you value? What do you want people to think of when they think of your business, its management, etc.?

- 1. As you read through the following pages, please circle each word that you think relates to your brand.
- 2. Next, review the words you've circled and add any that you believe are missing.
- 3. From all the words you've chosen, choose the 3 most significant words.
- 4. Number those 3 words in order of importance (1 being THE most important).
- 5. Now think about these three words in terms of values. Are these absolutes for how you do business? Would you say you must have these in order to feel fulfilled?
